## BIG OREBODY IS OPENED ON THE BOTTOM LEVEL

### The Tonopah Divide Cuts a Rich Ledge East of the Shaft

#### SAMPLES OF OIL FROM THE FIND AT FALLON

Mr. Hall, the oil expert, main- tains there is ample proof of the presence of oil in the hole drilled by the Fallon Oil & Gas Company which so many weird predic- tions have been made. Mr. Hall was with the Tonopah crowd that went to the well without finding any evi- dence of a flow. He and the Tonopah visitors left together for home- town reaching Fallon Mr. Hall's automobile broke down and he had to remain while repairs were made. To put in the time he went out again to the hole and found a heavy dark oil with a greenish tinge in the lit- tle basin scooped out for receiving the sludge. From this he gathered a sample which he brought to Tonopah and which he is now exhibit- ing.

V. A. Barber, a geologist of un- doubted probity, took other samples which he forwarded to Prof. Lin- coln at the school of mines for an- alysis. Mr. Hall says the well is not coming in as a gusher as the seep- age finding its way to the surface must come from the aperture of the drill and is not coming from the walls. The absence of oil when he and others first reached the well is said to be due to the number of

## Opened For a Distance of 60 Feet and Cross Cut 12 Feet All Sulphides

A development of the greatest significance on the Tonopah Divide is officially reported by E. A. Fal- con, consulting and directing engi- neer through Charles A. Starr, en- gineer in charge. This is the ex- posed of an orebody that has been drifted on for a distance of 60 feet and crossed for 12 feet dis- closing an average value of \$25 a ton. The orebody was opened on the fifth or sixth level. The extent of the orebody has been known for some time but the management preferred to con- duct ample development so as to preclude the possibility of a prema- ture statement that would not be borne out by the findings. The lo- cation of the orebody was highgrade was exposed at 500 feet from the shaft. The formation is all sulphide which makes the entire orebody first- class as it was commonly under- stood that the workings had to be made further depth in order to reach the sulphide zone. Of course

## May Day Passes and No Trouble in U. S.

(By Associated Press.) WASHINGTON, May 1. Fore- warned by the department of justice that those responsible for the main- tenance of order in every city and industrial center were prepared to act at the first sign of any disorder instigated by the radical elements. While reports continued to arrive that Communist agitators still are doing all in their power to arouse the workers to a "May Day show of power," no instance of violence had come from any source.

(By Associated Press.) CHICAGO, May 1. Despite pre- dictions of widespread violence in connection with the celebration of the international labor day by Socialists, the day passed without incident.

(By Associated Press.) BUTTE, May 1. May Day strikes proposed by the I. W. O. did not develop in Montana so far as learn- ed.

#### JAPANESE SIGN AN AGREEMENT

WASHINGTON, May 1.—The Jap- anese-Russian agreement which the Tokyo war office announced yester- day soon to be signed was declared today by the Japanese ambassador as being purely military and framed solely for the purpose of preventing a collision of Japanese and Russians in Siberia.

in the course of development at var- ious points sulphides have been en- countered but in no case has the ledge carried more than sulphides. The ratio of gold and silver is about the same as in the upper levels.

When it was stated that the ore- body is twelve feet wide that should be qualified by the explanation that the only crosscut run has been at- tained that distance. In common with all other sections of the Tonopah Divide mine highgrade was en- countered with values running away up to the surface and a fairly large showing of \$100 a ton but the man- agement considers the average ex- ample of \$25 across the ledge of aver- age importance than isolated cases of super enrichment carried in an- other. In the upper levels, how- ever, was disseminated through the hostiles but on this the bottom level the picture is different.

This is the deepest ledge ex- posed on the Tonopah Divide and is an excellent answer to the various allegations that have been circu- lated during the past month.

(By Associated Press.) BUTTE, May 1. The company is resuming installation of the new steam new engine and boiler equip- ment of 112 h. p. capacity which will be placed in operation as soon as the motor and accessories. #### ICE CREAM AND CAKE GALORE

"The gang" was out last night and the members fared sumptuously on ice cream and cake until Officer Dan Corbett broke in on the feast and marched a dozen of the elder boys off to the jug where they re- mained until nearly midnight when their parents responded to piteous telephone calls begging for them to come and bail their offspring out. The first raid was made on the Wittenberg back porch where the gang got away with a nice lot of home made cake already prepared for distribution on pretty hand painted plates. After satisfying themselves the bunch brought back the plates and left a note expressing disown enjoyment of the treat and thanking Mrs. Wittenberg for her thoughtfulness in placing the cake within easy reach. The cake appears to have stimulated the appetites of the juveniles for further adventure as they repaired to the rear of the Elks Home. Their bliss was con- summated by the discovery of a ten gallon can of ice cream which had been left out in the cool night air without an armed guard. This was appropriated and other raids were apolled by Officer Corbett appearing and escorting the offenders to jail.

The boys who stole the cake and edibles were arraigned before Justice Dries this morning after remaining in jail until midnight and received sentences of ten days in jail with bread and water as a diet. After imposing sentences the court suspended sentence with the under- standing that if the boys are caught again in any similar outrage they will be taken directly to jail to sit out the sentence. Chief of Police Jack Grant wishes people giving parties would inform his office so that he will have an officer in at- tendance to protect the house from vandalism.

#### TROOPS MASSES IN PARIS TO CHECK ATTACK

(By Associated Press.) PARIS, May 1.—Troops were massed at all strategic points in full strength today to cope with possi- bilities of disorders in connection with the May Day celebration. Brigadier Rondeau, of the republican guard, was shot in the back last night outside of a hall at the con- clusion of a Communist meeting but was not dangerously wounded. Police inspector Lecomte was assaulted at the same time.

Two Socialist members of the Chamber of Deputies, Vaillant Cou- turier and Alexandre Blanc, were injured in a clash with police today. The clash was between the republi- can guards police and 7000 May Day manifestants which occurred this afternoon. Shots were fired during the melee and several were reported injured. This was the first active disorder of the day. Two persons were killed and about fifty injured in a later series of small riots throughout the city.

#### RESUMING ON SPANISH BELT

Victor Barnet brought good news from the Spanish Belt this morning after spending a day at the property and arranging plans of development. Construction of the power line will be resumed immediately and the mill will be hurried to completion so as to begin utilizing the large tonnage of good milling ore which has been going on the mill dump for the past eight months. During the bad weather of the winter the com- pany suspended construction of every kind as it was impossible to deliver supplies except at a prohibitory cost of hauling. Mine developments will also be resumed with a full force.

The company has received returns from two carloads of highgrade ore which was sent to the smelter. The realization was approximately \$200 too.

#### EXPECT REVOLT IN JUAREZ

(By Associated Press.) EL PASO, May 1.—Colonel Mora, commander of the Juarez garrison, who hurriedly crossed the interna- tional line shortly after midnight, is fleeing Juarez because of an antici- pated revolt in that city was the claim today in anal-Carranza circles. Reports this afternoon were that the Juarez garrison had peacefully joined the revolution.

#### ORDER RECOUNT IN NEW JERSEY

(By Associated Press.)
